The port of Vado Ligure is one of the most advanced in Europe, combining innovation, automation, intermodal connectivity and the ability to offer fully integrated and complex logistics services such as cold storage, project cargo, Ro-Ro and intermodal transport. Vado is one of the main Med gateways for fruit imports into Europe, offering wide dedicated facilities and value added logistics services. Vado Gateway, the first semi-automated container terminal in Italy, has opened at the end of 2019, catering for the needs of the largest container vessels.

Savona is a long-standing tradition port town. Today the older quays of the port cater for tourism and cruise: **Savona is one of the cruise capitals in the Med Sea.**

Modern deep-sea quays host **up-to-date cargo terminals** which cater for any kind of commodity (dry and liquid bulk, general cargo), offering **state-of-the-art warehousing and logistics services.**

The port of Savona is the hub of a wide network of Motorways of the Sea services throughout the Med Sea and **can handle any kind of ro/ro traffic.**
