

Inauguration second rail track into PSA Genova Pra'

29 January 2020

Today PSA Genova Pra'a [PSA Genova Pra'](#) inaugurated the official opening of the double rail track connecting the container terminal to the RFI-operated Genova Pra' Mare rail hub.

The second rail track and the new layout of the rail hub are set to contribute to a doubling of the throughput handling capacity. This major infrastructure project was delivered across a 30 million euro investment programme, and represents the first of a range of major rail infrastructure works, to be implemented by the Western Ligurian Sea Port Authority and RFI (Italian Railways Network), in the port basins of Pra' and Sampierdarena.
