

Ponte dei Mille West Cruise Terminal. Works completed

22 April 2022

The quaywall retrofitting and dredging works alongside Ponte dei Mille West have been completed on schedule.

The project forms part of the wide-ranging plan to upgrade the docks of the Genoa Old Port and Passenger Terminals.

The Stazioni Marittime Genova Passenger Terminal is now ready to kick off the busy summer cruising season and confirms the maiden call of the future generation MSC World Class cruise ships, scheduled to dock by the second half of the year.
